

Service Desk Engineer PLC (m/f/d)

Fulltime | Hart bei Graz, Austria

#yourmission

- Receipt of support requests and their solution-oriented processing and documentation
- You support our customers worldwide from the headquarter in Graz
- You analyze and solve problems of existing logistics systems and ensure the availability of the conveyor systems
- You don't mind traveling all over the world to build up know-how during the training phase
- You have no problem to work in shifts after the Knapp training
- You have the opportunity to supplement your salary by being on call at weekends

#youareknapp

- You have a technical education with a focus on electrical engineering
- You have first knowledge in PLC programming, ideally with Siemens S7 and TIA Portal
- You speak English and German fluently
- You are a team player. However, independence and accuracy are also among your strengths

#weareknapp

You have the opportunity to use your experience and skills to help shape and pioneer a rapidly growing, dynamic department – embedded in a leading global group of companies. Freedom and responsibility are certainly there. Teamwork is very important to us – that's why you will not only receive a personal mentor when you start, who will accompany you during your training, but you can also always count on your colleagues afterwards! The minimum salary for this position is EUR 2,650 gross per month. However, we offer a payment in line with the market depending on your qualifications and previous experience.
