

Software Commissioning Engineer (m/f/d)

Fulltime | Wien | Klagenfurt | Hart bei Graz, Austria

#yourmission

- You model, parameterize and configure our software according to individual customer requirements
- You ensure software quality by testing the software with our simulators
- Commissioning the software in collaboration with all the different technology specialists is an important part of your job profile
- You will also ensure quality through on-site integration tests and support our customers with functional tests and training before the start-up phase
- The implementation of customizations of our software according to the customer's needs is also an important task for you
- After commissioning, you prepare the project and hand it over to downstream departments for further processing

#youareknapp

- You have completed training in the field of IT
- You have basic knowledge of object-oriented programming (C++, C# and/or Java)
- You also have basic knowledge of relational databases (SQL or Oracle) and Linux
- You enjoy traveling internationally (on average approx. 50% per year)
- You speak English well
- You are open to new things, stress-resistant and customer-oriented
- You are physically and mentally fit, able to stand and walk for extended periods, capable of lifting 25 kg at shoulder height, and comfortable with heights and climbing ladders

#weareknapp

We offer you a secure and long-term job in a leading company in Styria and the opportunity to constantly develop yourself in a motivated team. This position is remunerated with at least € 3.040 gross (KV for employees in the metal trade, VWGr III/i1u2J.). An overpayment is of course possible depending on your professional qualifications and experience. You will also receive a monthly allowance of up to € 1,350 net and bonuses of up to € 1,350 gross, depending on the amount of travel.
