

Head of Controls Commissioning (m/f/d)

Fulltime | Hart bei Graz, Austria

#yourmission

- You lead a department with approx. 30 employees consisting of four teams
- The commissioning of real-time controls in KNAPP products such as conveyor technology components, printing & sorting solutions and the OSR shuttle system are your daily business
- An important part of your job is to implement established solutions as well as new technologies for commissioning
- You will prepare your area of responsibility for the future through continuous improvement and process optimization
- Employee management & development, budget & personnel responsibility, as well as international project management are your main tasks

#youareknapp

- You have a sound technical education (HTL, technical college, university)
- You already have several years of experience as a manager and relevant knowledge in the field of automation and control technology in intralogistics
- You have a strong understanding of IT and software
- Intercultural and international communication is also part of your experience – you speak (and write) excellent German and English
- You are on business trips when the project requires it – approx. 20% of the time

#weareknapp

After several years as a commissioning engineer, you are now ready for the next step in your career. In this job, variety is guaranteed and you will work with your colleagues on future-oriented projects. This position is remunerated with at least € 6,000 gross (KV for employees in the metal industry, VWGr V/i1u2J.). Our employees impress with their personality, talent and commitment. We therefore determine your gross salary individually with you. An overpayment of the above salary is possible depending on your professional qualifications and experience.
