Network & IT-Engineer (m/f/d)

Fulltime | Hart bei Graz, Austria

#yourmission

- You develop network and IT solutions that are used in our customer systems
- You will work on topics ranging from simple networks to high-availability solutions in the server and network area
- You work in a central role and are an important interface to our customers and several internal departments
- The creation of detailed specifications is another very important task

#youareknapp

- You have a completed IT education (HTL, FH, TU)
- You have experience with various operating systems (Linux, Windows, VMWare ESX)
- You have solid knowledge in the field of network technology (routing, VPN) and data backup
- You speak English very well
- Thanks to your strong communication skills, you always find the right words for external and internal partners
- You enjoy working with modern technologies, are solution-orientated and very independent

#weareknapp

We offer you a secure and long-term job in a leading company in Styria and the opportunity to continuously develop yourself in a motivated team.If you are as enthusiastic about technology as we are and would like to actively contribute your knowledge to a globally successful company, then you have the opportunity to do so as an employee in „Software Engineering" after your high-quality internal training. This position is remunerated with at least € 2,950 gross (KV for employees in the metal industry, VWGr III/i1u2J.). Our employees are characterised by their personality, talent and commitment. We therefore determine your gross salary individually with you. An overpayment of the above salary is possible depending on your professional qualifications and experience.
