

Solution Project Lead (m/f/d)

Fulltime | Leoben, Austria

#yourmission

We are seeking a highly organized and results-driven Solution Project Lead to lead and coordinate software projects from initiation through delivery. The ideal candidate will have a strong technical background, excellent communication skills, and proven experience managing cross-functional teams.

Responsibilities:

- Develop comprehensive project plans outlining scope, goals, timelines, resources, and budgets
- Coordinate with stakeholders to define project requirements and technical specifications
- Execute project plans, monitor progress, and adjust as necessary to ensure project milestones are met
- Identify potential risks and develop mitigation strategies to minimize project disruptions
- Proactively address issues and obstacles to keep projects on track and within scope
- Allocate resources effectively to support project goals and timelines
- Coordinate with resource managers to ensure appropriate staffing levels and skill sets are available for project tasks
- Maintain accurate project documentation, including project plans and status reports
- Provide regular updates to stakeholders on project progress, including key milestones, risks, and mitigations strategies
- Strong understanding of project management methodologies, tools, and best practices
- Excellent communication and interpersonal skills, with the ability to collaborate effectively with cross-functional teams
- Demonstrated leadership abilities, including the ability to motivate and inspire team members to achieve project goals
- Experience with risk management, quality assurance, and resource allocation
- Ability to adapt to changing priorities and work effectively in a fast-paced environment
- Strong analytical and problem-solving skills, with keen attention to detail

#youareknapp

Your qualifications and skills:

- Bachelor's degree in engineering, project management, or a related technical management field. Advanced degree preferred
- Previous cloud software design contributor experience
- Experience as a Project Manager in full product development lifecycle projects from design inception to final production release
- Managerial skills, such as working with teams, scheduling, budgeting, and planning skills
- PMP certification or equivalent is a plus
- Experience with JIRA or a similar Project Management tool is a must
