

Web Developer (m/f/d)

Fulltime | Dobl-Zwaring, Österreich

#yourmission

Your area of responsibility

- Develop modern, high-quality web frontends for innovative business applications
- Contribute your design and usability expertise in regular design and review sessions
- Implement responsive user interfaces using Angular
- Develop complex UI components with a strong focus on clean, maintainable code
- Review mock-ups and wireframes for technical feasibility and usability
- Collaborate closely within an interdisciplinary SCRUM team
- Ensure stable and reliable frontend build processes

#youareknapp

Your profile

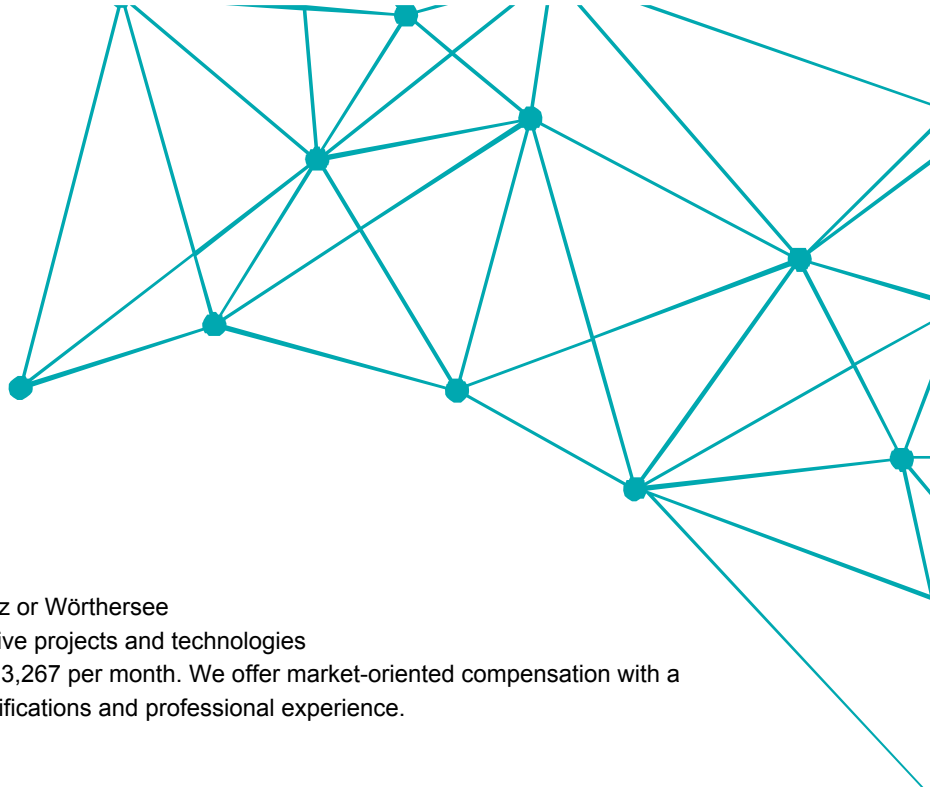

- University degree (TU, FH) or comparable professional experience
- Strong knowledge of Angular and classic web technologies (HTML, CSS, JavaScript)
- Process-oriented mindset combined with a strong sense for aesthetics and usability
- Solid understanding of backend technologies (e.g. Java/Spring Framework, Ruby on Rails, Python)
- Strong team spirit and enjoyment of collaborative work
- Fluent written and spoken English
- Structured, goal-oriented, and independent working style

#weareknapp

Your benefits

- Become part of a young, dynamic company with flat hierarchies and short decision-making paths
- Flexible working hours including home office options
- Professional and personal development programs

- Choice of working location: Dobl near Graz or Wörthersee
- Modern working environment with innovative projects and technologies

The minimum gross salary for this position is € 3,267 per month. We offer market-oriented compensation with a clear willingness to overpay depending on qualifications and professional experience.
