PLC Commissioning Engineer - Siemens TIA / Automation Engineer (m/f/d)

Fulltime | Klagenfurt | Wien | Hart bei Graz, Austria

As a PLC Commissioning Engineer, you bring KNAPP's automated warehouse systems to life. You program, configure, and test Siemens PLCs (S7, TIA Portal) and ensure seamless commissioning for our international customers.

#yourmission

- Commissioning of automation and conveyor systems
- PLC programming & troubleshooting (Siemens TIA/Step7)
- On-site testing, optimization and handover
- Collaboration with electrical, mechanical and software teams
- Training customer technicians
- International travel (around 60–75 %)

#youareknapp

- Degree in Mechatronics, Automation Engineering or Electrical Engineering (HTL or similar)
- Basic or advanced experience with PLC programming (preferred Siemens)
- Passion for automation, robotics and technology
- Good English skills
- Proactive mindset and willingness to travel
- You are physically and mentally fit, able to stand and walk for extended periods, capable of lifting 25 kg at shoulder height, and comfortable with heights and climbing ladders

#weareknapp

We offer you a secure and long-term job in a leading company in Styria and the opportunity to continuously develop yourself in a motivated team.This position is remunerated with at least € 3,040 gross (KV for employees in the metal industry, VWGr III/i1u2J.). A significant overpayment is of course possible depending on your professional qualifications and experience. You will also receive a monthly allowance of up to € 1,350 net and bonuses of up to € 1,350 gross, depending on the amount of travel.
