# Controls Engineer (m/f/d)

Fulltime | Hart bei Graz, Austria

## #yourmission

- You represent the Commissioning department within the company and are therefore the first point of contact for feasibility analyses
- You check planning documents for compliance with our quality standards and report any defects to the engineering (planning department)
- You create a functional description for each project to commission the system
- You always maintain open and supportive communication in your work

## #youareknapp

- You have completed a basic technical education (TU, FH, HTL, IT apprenticeship)
- You have several years of professional experience and basic knowledge of S7 control technology
- You have the ability to record complex technical issues and communicate them in writing or verbally
- You are familiar with logistical interrelationships
- You speak English very well and have a high willingness to learn

## #weareknapp

We offer you a secure and long-term job in a leading company in Styria and the opportunity to continuously develop your skills as part of a motivated team.

If you are as enthusiastic about technology as we are and would like to actively contribute your knowledge to a globally successful company, then you have the opportunity to do so as an employee in "Controls Engineering" after your high-quality internal training.

This position is remunerated with at least € 3,110 gross (KV for employees in the metal industry, VWGr III/n4J.). Our employees impress with their personality, talent and commitment. Therefore, we determine your gross salary individually with you. An overpayment of the above salary is possible depending on your professional qualifications and experience.
