

# Backend Software Developer Senior (m/f/d)

Fulltime | Dobl, Austria

In April 2016, ivii GmbH was founded as a 100 % subsidiary of the KNAPP AG. The name ivii stands for intelligent visual image identification. Our goal and mission is to capture optical data and make it usable for the operator and customer with the help of image processing solutions. A passion for new technologies and innovations: This is what we want you to bring with you. And plenty of it! We want to work together with you to develop solutions for the future.

## #yourmission

- Your main duty as a backend developer is to self-reliantly develop microservices based on .NET using agile methods.
- You will evaluate new technologies, services, tools and hardware and contribute to launching new products on the market.
- You will work in close cooperation with the software architect, technical project manager and other software developers.

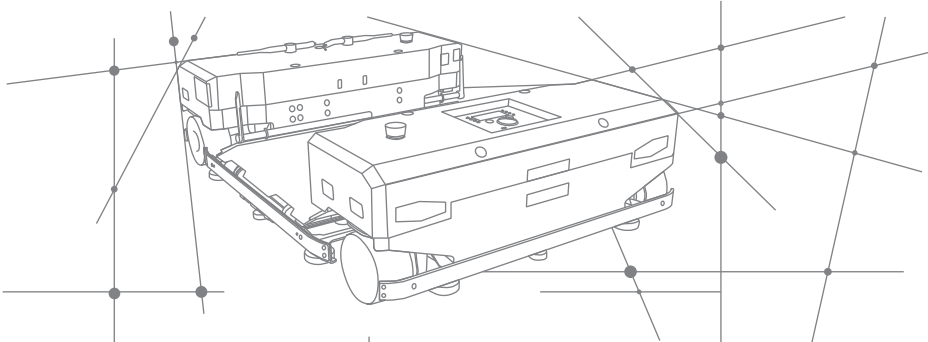

## #youareivii

- You have a minimum of 2 years of experience in software development.
- You have good knowledge of an object-oriented language (C#, Java, etc.) and basic knowledge of Linux.
- You are familiar with concepts such as BDD and TDD.
- A basic understanding of web technologies is an asset.
- You are an open person, you enjoy working in a cross-functional team and with cutting edge technologies.

## #weareivii

We work in an agile environment, developing new and innovative technologies for intelligent image processing. Our objectives, sense of responsibility and openness for new ideas and perspectives are at the heart of all our actions. Whether you're an early bird or a late riser ? our working

hours are flexible, meaning you can establish your own working rhythm. Take a break and re-energize with fresh food from our cafeteria prepared daily. A multifaceted vocational training programme is on offer for your personal development. We offer you the possibility to work with the newest technologies and tools, in a team of self-organized „hard coders“. The collectively agreed minimum salary for this position is ? 3.094,- gross per month. Depending on your qualifications and experience, we will pay a salary in line with industry standards.
